

# Likadislike

Players draw a card describing a situation. Then, each child expresses face down with an emoji card whether they like, dislike or love the situation described. All players turn over the emoji cards at the same time and react without judgment to each other's feelings.

**Printable resources attached:** situation cards x 45, reaction cards x 12, groups cards (majority card x 1, minority card x 1, median card x 1)

**Additional material needed:** cissors

## Onboarding - Welcome to the Unplugged Universe

**Total duration:** 30 min.

**Players number :** 2 - 8+

## Learning objectives

Putting into words and discussion of emotions and feelings

Communicating

Acquiring a sense of the rules of living together

Understanding and expressing myself orally

Acquiring the skills to discuss and question moral choices

## Linked SDGs

5 GENDER EQUALITY

4 QUALITY EDUCATION

10 REDUCED INEQUALITIES

16 PEACE, JUSTICE AND STRONG INSTITUTIONS

## Game modalities

8 - 12 years old

Work in group

Indoor

Outdoor

## Pedagogical interest and topics targeted

**Learn how to get to know each other and oneself without judgement:** offer an ice-breaking means aimed at bonding children by putting them in different situations, be it funny, entertaining or embarrassing, in their daily lives. The game allows for children to share freely facts about themselves, discover alike thinkers, and understand other points of view. It prepares young people who can confidently share their views and know how to do this respectfully. There is no card "neither like, no dislike" as the games aims for children to really take a standpoint.

**Building confidence and independence by caring less about what other people think about us:** as with any other societal group, students do not always know each other very well. They can have preconceived ideas, which can lead them to be afraid of others and what they think, and therefore sometimes also intimidate or reject them. Likadislike helps children develop their social relationships and promotes inclusion.

**Speak out:** give reasons to speak out with words, verbally, their emotions and feelings. Likadislike fosters expression of thoughts and feelings and provokes discussion about habits and emotions which may often stay out of the comfort zone of children. It develops healthy communication skills in the youngest.

**Develop one's sensibility:** extends one's emotional sensibility, and understand the rules of common life as well as respect what others think or feel.

**Question one's self:** fuel curiosity and help adopt ethical and responsible behaviour.

## Game rules

**Game narrative:** With Likadislike, break the ice by betting on the opinion group you belong to in realistic and funny situations.

**Role of the teacher and game organisation:** We will call the children, **players**, and the adult in charge of the children, a **referee**. While the players take turns playing, the referee decides the order.

**Installation:** Shuffle the **situation cards** pack and place it in the middle of the players.

Give each player a **reaction card** of each type:

I don't like,

I like

I love.

Place all **group cards** in the middle of the players:

majority

median

minority

Each game turn is made of three successive phases:

- **Active** player phase
- **Reaction** phase
- **Revelation** phase

A game session stops when all players have been active the same number of times. **Those that have the most victory points [situation cards] win!**

## Game rounds

### Round 1 - Active player phase

At each turn, the active player changes. All players will take turns to be active.

The active player takes the following steps while never showing their card:

1. Draw a **situation card** and read it alone
2. Choose his **reaction card** describing best his real feelings towards the situation or whether the situation corresponds to how they react having the same circumstances.
3. Choose the **group card** matching their position, if they think(\*) they will be in the players' majority, minority or neither (median) who feel/act that way.
4. Decide if the voting will be about "feel towards" or "act like in" the situation.

(\*)To try to bet correctly, it is suggested to take into account the situation and the other players.

### Round 2 - Reaction phase

At the beginning of the reaction phase, the active player shows the **situation card** they have drawn.

All the other players read the situation and choose their reaction card matching their feeling for the situation, and place it, face down in front of them.

### Round 3 - Revelation phase

During the revelation phase, all players turn in their reserved reaction cards at the same time.

The players are free to talk peacefully, respectfully and without judging the reactions of each other.

The referee then helps the players to count the reaction of each type to determine if the active player wins their bet /guessing (if they guessed correctly if they will be among minority, majority, etc., of liking, disliking or loving the situation). If the player has guessed it, they keep the situation card as a victory point.

# Going further

## Topic 1 - Expressing opinion

To further develop healthy communication and expressing of opinion you may wish to refer to other Unplugged games, among which: ***Brainstorming, The Perfect City, Live in Harmony, etc.***

To read more about logical reasoning you may see <https://www.rolemodels.me/news/express-opinions-confidently>.

## Topic 2 - Expressing feelings

To further foster expressing of feelings you may wish to refer to other Unplugged games, among which: ***Clay and Sculpture, Poverty-free game collection, Live in Harmony, etc.***

To read more about how to develop emotional intelligence you may see <https://ideas.ted.com/how-to-raise-emotionally-intelligent-kids/> or <https://www.understood.org/en/articles/the-importance-of-emotional-intelligence-for-kids-with-learning-and-thinking-differences>

## Topic 3 - Inclusivity

To further foster children develop their feeling towards you may wish to refer to other Unplugged games, among which: ***Poverty-free game collection, Live in Harmony, Cookies and Peace, Equal, etc***

To have an overall glance to inclusivity you may refer to <https://www.twinkl.bg/teaching-wiki/inclusion>
